### REPORT SCHOOL SECTION.

RESURBECTION.

Rev. Dr. Kelly, pastor of the M'Kendre Methodist Episcopal church of Nashville, recently startled the orthordox members of his church by preaching a sermon in whi hine took ground against the commonly accepted doctrine of the literal resurrecion of the entire human race at the last day. This produced a profound sair among the brethren, and many of them call upon him to recant and fall back into line.—Dyersburg Gazette.

Now what we want Dr. Kelly to do is to tell us right away who are to resurrect and who are not-by what sign we are here to recognize the fortunate or unfortunate ones. | these three murderers would show that the than another that at a blast from Gabriel's horn his molecules will join together again in the twinkling of an eye from the sea, the air, the mountain and the plain, while the molecules of another are so inert, so dead, so utterly played out that even the buzz and hum of resurrection day will not bring them back to life. If Dr. Kelly will tell us this we will guarantee him a place above Edison and Keely, of the motive-power craze. We want this resurrection busine's closed out now-we want to know who have the germs of perpetual motion and who the germs of

TILDEN OUT OF THE BACE. In our opposition to the nomination of Under this heading, in its column devoted to "Commerce and Finance," the New Orleans Picayane calls attention to the fact that before the war, and for several years after, cotton was not only the largest item of expertation party. Consulting alone our own judgment, we instinctively felt that he was Samuel J. Tilden as the Democratic candijudgment, we instinctively felt that he was not the man for the crisis. The leader of a This is no longer the case. Of late years the faction in New York, the breach between exports of other agricultural products have Tilden and the Democrats who oppose him, increased with wonderful rapidity. [Extract from the Baltimore "A. vican,"

December 21, 1878.] "The Pulvermacher Electric Belt is recon mended to general use for the following reasons: First, for 'ts wonderful properties for the cure of diseases of the kidneys, stomach, iver and blood; secondly, for its extreme mplicity, and the fact of its being applied itside, precludes all possibility of any injury being done to the patient, as an external emedy is universally acknowledged to be afe. Another advantage is the facility with which the progress of the disease and care can be watched, and if the Belt be not quite in the right place, it can be very easily readjusted so as to cover the parts affected. The Pulvermacher Electric Belt, and its perfecon, has been hailed with delight, not or ly

NATURAL VITALITY AND COLOR. It is a most agreeable dressing, which s at once harmless and effectual, for preserving the hair. It restores, with the gloss and freshness of youth, faded or gray, light, and red hair, to a rich brown, or deep black, as may be desired. By its use thin hair is thickened, and baldness often though not always cured. It checks falling of the hair immediately, and causes a new growth in all cases where the glands are not decayed; while to brashy, weak, or otherwise diseased hair, it imparts vitality and strength, and renders it pliable.

The Vigor cleanses the scalp, cures and prevents the formation of dandruff; and, by its cooling, stimulating, and soothing properties, it heals most if not all of the imors and diseases peculiar to the scalp, keeping it cool, clean, and soft, under which conditions diseases of the scalp and hair are impossible.

As a Dressing for Ladies' Hair, The Vigon is incomparable. It is colorss, contains neither oll nor dye, and will not soil white cambric. It imparts an agreeable and lasting perfume, and as an article for the toilet it is economical and unsurpassed in its excellence.
